		\$50 Full Day (more than 5 hrs)	\$100 Cleaning deposit

Above is an outline of our facilities fees, these are set to be applicable to those wanting to "Reserve" any facility or field space, reserving is defined as: the spot is set for you and you only during a pre-authorized time. The reservation cost does not include: painting, chalking, watering, set up, etc. If you would like to have these services an additional cost will have to be negotiated. Reservations will be under discription by the Parks and Recreation Director, fees can be subject to change, alternative payments may be considered such as: community service, trades, etc. All reservers are obligated to sign a release and an agreement of distruction that states that if any individual using the park causes a unreasonable amount of damage on the surface they have reserved, they will be held accountable for the damages, which will be assessed by the Director.

Any grass fields can be deemed as unplayable at any time due to an over abundance of moisture, which would cause significant damage to the grass. The fees are for all residents, non-residents, and commercial groups.
