

PLAIN CITY COUNCIL
MINUTES OF REGULAR MEETING
AUGUST 6, 2020

The City Council of Plain City convened in a regular meeting at City Hall on Thursday, August 6, 2020, public was accessible via ZOOM beginning at 7:00 p.m.

Present: Mayor Jon Beesley, Councilmembers Chad Allen, Rachael Beal, Buddy Sadler, Don Weston and Todd Skeen.
Staff Present: Diane Hirschi, Dan Schuler, Mike Kerswell
Present: Jarod Maw, Lt Mark Horton
Attendance via Zoom: Jim and Carol Jean Beesley, Cody Rhees, Rob Ortega, Mayvis, Val Sanders, Bristol and Madison, Ashley, Sean Jones, Scott and Jennifer Read, Linda Youngdell, Rob B.

Call to Order: Mayor Beesley
Pledge of Allegiance: Councilmember Skeen
Invocation/Moment of Silence: Councilmember Allen

Approval of Minutes from July 16, 2020

Councilmember Sadler moved to approve the minutes from the work meeting and the regular meeting of the City Council on July 16, 2020 as presented. Councilmember Allen seconded the motion. Councilmembers Allen, Beal, Sadler, Weston and Skeen voted aye. The motion carried.

Comments: Public
None presented.

Report from Youth Council

Mayor Beesley reported that the Plain City Youth Council has been meeting periodically through the COVID-19 health crisis. He indicated that they will begin to send a representative to City Council meetings when their regular schedule resumes.

Report from Planning Commission

Planning Commission Chairman, Jarod Maw reported that final approval of the Heritage North subdivision, approx. 4008 W 2800 N, was recommended by the Commission at their July 23rd meeting. He noted that the item is presently on the City Council meeting agenda. He commented on a lengthy discussion about amendments to the Residential Overlay Zone ordinance, that took place in the same Planning Commission meeting. Councilmember Allen remarked on utility service conduit in new subdivisions and queried about possible code stipulations that would require a developer to install such provisions. Jarod Maw suggested that the requirement could be included in Public Works Standards. He contemplated tactics for conveying fiber-optics to existing homes. Councilmember Sadler requested that the Planning Commission review a Public Works Standard, requiring the provision of a utility conduit in their next meeting. Jarod Maw agreed to review/discuss the matter during the August 13th Planning Commission meeting.

Discussion/Motion: Waive Rental Fee for Pioneer Park – Fremont Football

Mayor Beesley indicated that Johanne Holmes - a Fremont High School Football player's mother - asked the Council to waive the Pioneer Park bowery rental fee for a once-weekly team gathering, through months of the football season (August – October). He mentioned that the City is charged for their activities held on Fremont High School property, but the waiver is requested by parents of the players and not the School or School District. Councilmember Allen advised that the waiver should be brought to the attention of Fremont High School administrators. **Councilmember Allen moved to Waive Pioneer Park Rental Fees for Fremont High School Football Team activities. Councilmember Weston seconded the motion. Councilmembers Allen, Beal, Sadler, Weston and Skeen voted aye. The motion carried.**

Discussion/Motion: Final Approval of Heritage North Subdivision – 4008 W 2800 N – 22 lots

Mayor Beesley referred to the final Heritage North plat drawing and exhibited particulars associated with the proposed detention/retention basin. He explained how the purchase of Weber County property (Parcels 19-025-0012 and 19-025-0057) will influence the subdivision arrangement by allowing a regional detention basin to be built. He noted that engineering and updated drawings will be provided by the developer after Final Approval of the subdivision is granted. He listed difficulties posed by a retention basin on private property. Councilmember Sadler pointed out that the property comprising the proposed detention/retention basin has been restricted from any further development. He voiced approval of replacing the basin on the private parcel with a regional detention resource. He questioned if the City's purchase of Weber County land expressly for this purpose and benefit will set a difficult precedent. He noted that curb, gutter and

PLAIN CITY COUNCIL
MINUTES OF REGULAR MEETING
AUGUST 6, 2020

sidewalk designations are not shown on the presented plat. He reported that a Planning Commissioner told him that the boundary of Parcel 19-025-0057 appears to run through an existing barn on Weber County maps. Project developer, Cody Rhees maintained that the existing structure is not an obstacle. He remarked on plans to purchase Weber County parcels and expounded the intended construction of a regional detention basin. Councilmember Weston commented on the broad use of a regional detention pond by future subdivisions. He suggested that developers of said projects be assessed part of the City's acquisition expense. Mayor Beesley affirmed that Cody Rhees will be investing significantly more than the City's cost for the parcels to provide the regional stormwater system. Councilmember Sadler asserted that engineering for the detention basin and a plat drawing showing curb, gutter, and sidewalk locations must be presented to the Council before final approval can be granted. Cody Rhees recognized the refinements to be made on the final drawings and assured that the details will be provided. **Councilmember Sadler moved to table Final Approval of Heritage North Subdivision – 4008 W 2800 N – 22 lots. Councilmember Allen seconded the motion. Councilmembers Allen, Beal, Sadler, Weston and Skeen voted aye. The motion carried.**

Discussion/Motion: Purchase Property (Parcels 19-025-0012 and 19-025-0057)

Mayor Beesley described the location of Parcels 19-025-0012 and 19-025-0057. Councilmember Sadler remarked on parameters used to figure the value of the Weber County parcels to be purchased. He submitted that a type of Pioneer Payment could be assessed for use of the regional detention basin. **Councilmember Sadler moved to approve Purchase of Property (Parcels 19-025-0012 and 19-025-0057). Councilmember Allen seconded the motion. Councilmembers Allen, Beal, Sadler, Weston and Skeen voted aye. The motion carried.**

Discussion/Motion: Residential Sewer Rates

Mayor Beesley acknowledged the effort put forth by Councilmember Weston and Councilmember Sadler to contrive this pay-per-use model for Residential Sewer Rates. He presented a chart that was created by City Recorder, Diane Hirschi, characterizing the impact of the proposed program on household monthly sewer bills. He noted variations in the amount residents would be charged, compared to the existing flat fee structure. He expressed accord with the intended fairness of the proposed pay-per-use model, but admitted he has reservations because some residents will see a sizeable utility cost increase. Councilmember Sadler thanked Diane Hirschi for the informative data, indicating that the chart demonstrates to him that commercial sewer rates should be adjusted to equal residential rates. Councilmember Weston asserted that making sewer rates fair, across the board, is the point of this billing approach. Mayor Beesley determined that one household in the sampling used for the diagram, would face a monthly sewer bill increase of nearly 200% under the new statute. Councilmember Weston reported that he has become more conscious of his household water usage and has made an effort to conserve while formulating this pay-per-use proposal. He expected that citizens will likely use less water when their sewer bill is directly impacted. Mayor Beesley commented on a calculable decrease in City sewer budget revenues due to public water conservation actions. Councilmember Weston stated; the sewer rate (per gallon) can be increased if a reduction in water consumption causes revenue shortfalls. Councilmember Beal disagreed with the concept, inferring that it penalizes residents for conserving water. Councilmember Sadler reasoned that a reduction of culinary water use would represent a reduction of flow through the sewer system, thus lessening treatment and maintenance costs. Mayor Beesley indicated that reduced flow will have very little influence on sewer treatment and system maintenance costs. Councilmember Weston expressed his opinion that a pay-per-use system is better than the flat rate system, currently in place for sewer billing. Councilmember Sadler asserted; those producing less stress on the sewer system will continue to subsidize households that affect greater demand if the billing structure is not altered. He suggested that the pay-per-use schedule may motivate individuals to change their poor water-usage behaviors. Mayor Beesley deduced that half of Plain City's population will see higher sewer bills, should the pay-per-use schedule be adopted. Councilmember Allen agreed with Councilmember Weston's claim that a pay-per-use system is better than the flat rate system, currently in place for sewer billing. He explained that he understood and accepted the ramifications of building a home the size he did – higher utility costs, included. He stated; people that make choices that result in higher household water-usage should not expect others to subsidize their sewer service bill. He commented on family planning factors. He weighed instituting an ongoing assessment of revenue and adjustment of the sewer rate by Bona Vista, as they process monthly statements. Councilmember Sadler outlined provisions in the rate structure that allow households without a secondary water source to lock in a winter usage quotient. Revenue fluctuation was discussed at length. Rate review and adjustment procedures were contemplated. Councilmember Beal favored the pay-per-use concept, relating personal experience with similar policies fostered by the military. Councilmember Skeen expressed support of the proposed billing arrangement. **Councilmember Sadler moved to approve Resolution 2020-08 Residential Sewer Rate of .00442/Gallon (metered culinary water), beginning November 1, 2020 – with winter rate exemptions to be considered as of March 1, 2021. Councilmember Allen seconded the motion. Councilmembers Allen, Beal, Sadler, Weston and Skeen voted aye. The motion carried.**

PLAIN CITY COUNCIL
MINUTES OF REGULAR MEETING
AUGUST 6, 2020

Discussion/Motion: Recycle/Yard Waste Container Monthly Fee

Mayor Beesley informed; according to figures provided by trash hauler, Econo Waste, 90% of Plain City residents must participate in the new green waste program for the fees to equal those for current curbside recycling. He commented on opt-out terms and the transitional use of green waste containers during winter months. Councilmember Allen spoke of an original program agreement made with Econo Waste. He considered newly presented stipulations to be objectionable. Econo Waste owner, Val Sanders presumed that a large majority of Plain City residents will readily participate in the new green waste program. He remarked on actual hauling expenses. He expressed concern over a loosely drafted opt-out rider. He noted that the agreement was made before opt-out terms were added by the City. Councilmember Weston agreed that most residents will embrace the new program. He mentioned tipping fee increases resulting from grass clippings that are sent to the transfer station. Councilmember Sadler stated that there has always been an opt-out clause in the existing curbside recycling campaign. Mayor Beesley suggested that the fee can be adjusted to compensate for lapses in participation numbers. He proposed that the new green waste program be launched as soon as possible.

Councilmember Sadler moved to set the Recycle/Yard Waste Container Monthly Fee at \$3.65 per month. Councilmember Allen seconded the motion. Councilmembers Allen, Beal, Sadler, Weston and Skeen voted aye. The motion carried.

Discussion/Motion: Recycle/Yard Waste Information Letter to Residents

Mayor Beesley previewed a draft of the letter that will be distributed to residents, informing them of the City's new Recycle/Yard Waste arrangement. He noted that details, such as a start date, are to be decided by the Council at this meeting. He described instructional stickers that will be placed on current recycle (blue) cans - designating them as yard waste cans. Councilmember Allen recommended the start date be after September 1, 2020. Councilmember Beal suggested that the letter should specify September 2, 2020 as the start date. Mayor Beesley commented on probable disorders, as the program is initiated. Councilmember Sadler counseled that an explanation for the terminating of curbside recycling should be included in the letter. He recommended that the "No Bag" policy for green waste be highlighted, somehow. Mayor Beesley indicated that this letter will be hand delivered to every household, along with the instructional stickers. **Councilmember Allen moved to approve the Recycle/Yard Waste Information Letter to Residents, amended as discussed. Councilmember Skeen seconded the motion. Councilmembers Allen, Beal, Sadler, Weston and Skeen voted aye. The motion carried.**

Motion: Approval of Business Licenses
None.

Motion: Approval of Warrant Register

See warrant register dated 07/16/2020 to 07/31/2020. **Councilmember Allen moved to approve and pay the bills as presented. Councilmember Sadler seconded the motion. Councilmembers Allen, Beal, Sadler, Weston and Skeen voted aye. The motion carried.**

Report from City Council

Councilmember Skeen reported that the outgoing speed limit sign at the landfill is missing and remarked on the status of a proposal for a new evaporative cooler at the Fire Station.

Councilmember Weston gave a progress report on sewer lagoon maintenance work. He spoke of recent test results that show effective system performance at minimized capacity.

Councilmember Sadler reported that overgrown weeds and construction materials are obstructing the sidewalk near Sunflower Estates. He noted that the path is used by school children and should be cleared before the school year starts. He indicated that some vacant lots in the Sunflower Estates subdivision have excessive overspreading of weeds and recommended that the developer be directed to mow them down.

Councilmember Beal reported a citizen's complaint about a substandard structure being used for an irrigation ditch crossing. She stated that she tried to contact the president of Plain City Irrigation but was unable to reach him by phone. She requested assistance from Public Works Director, Dan Schuler and pledged to continue to reach out to the District. She instructed that there is a sidewalk on the other side of the road.

PLAIN CITY COUNCIL
MINUTES OF REGULAR MEETING
AUGUST 6, 2020

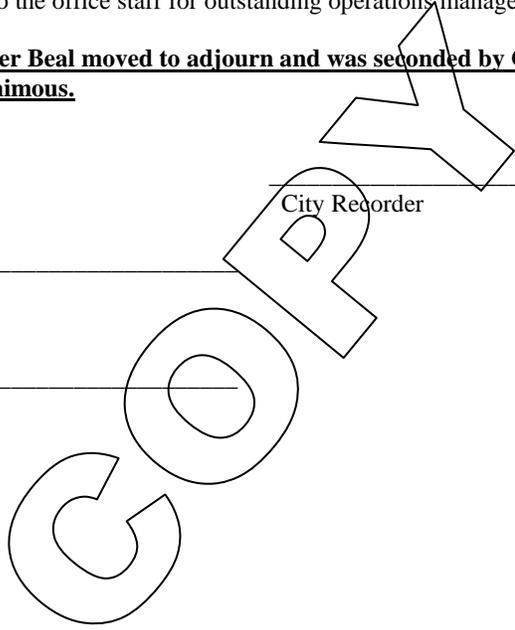

Mayor Beesley reported meeting with developers about new projects slated for construction in Plain City. He indicated that an improved Residential Overlay Zone ordinance will soon be presented to the Council for approval. He voiced appreciation for the Planning Commission for their help. He commended the Public Works Department for a job well done. He expressed thanks to the office staff for outstanding operations management and insightful guidance.

At 8:45 p.m. Councilmember Beal moved to adjourn and was seconded by Councilmember Weston seconded the motion. The vote was unanimous.

PLAIN CITY COUNCIL
MINUTES OF REGULAR MEETING
AUGUST 20, 2020

The City Council of Plain City convened in a regular meeting at City Hall on Thursday, August 20, 2020, public was accessible via ZOOM beginning at 7:00 p.m.

Present: Mayor Jon Beesley, Councilmembers Chad Allen, Rachael Beal, Buddy Sadler, Don Weston and Todd Skeen.
Staff Present: Diane Hirschi, Dan Schuler, Mike Kerswell, Brad Jensen
Staff Present via Zoom: Brandon Richards
Present: Cody Rhees, Blake Jenkins, Alex Papageorge, Jim Beesley
Attendance via Zoom: Kelly Weston, Mayvis, Mark Staples, Rob Ortega, Marci Doolan, Janice Christensen, House, Carol Beesley

Call to Order: Mayor Beesley
Pledge of Allegiance: Mayor Beesley
Invocation/Moment of Silence: Councilmember Weston

Approval of Minutes from August 6, 2020

Councilmember Sadler moved to approve the minutes from the work meeting and the regular meeting of the City Council on August 6, 2020 as presented. Councilmember Allen seconded the motion. Councilmembers Allen, Beal, Sadler, Weston and Skeen voted aye. The motion carried.

Comments: Public
None presented.

Report from Youth Council
None.

Report from Planning Commission

Blake Jenkins reported that Stillwater Development requested a Zoning Amendment (RE-20 to RE-18.5) on land located near 4899 W 1850 N. He indicated that the application was tabled, pending official documentation of sensitive land mitigation plans and a review by City Engineer, Brad Jensen. He noted that Stillwater Development is also seeking a rezone (A-1 and RE-20 to RE-18.5) of property near 1875 N 4700 W and a Public Hearing was set for September 10, 2020.

Discussion/Motion: Final Approval of Heritage North Subdivision – 4008 W 2800 N – 22 lots

Mayor Beesley described the project and reviewed previous discussion on the intended development. Councilmember Sadler asked if a development agreement has been checked by City Attorney, Brandon Richards. Developer, Cody Rhees explained that a hard copy of the developer's agreement was submitted on July 16th, 2020 and a digital copy was provided shortly thereafter. He indicated that he was informed by staff that the document is not required until utility infrastructure is in place. City Recorder, Diane Hirschi spoke of the difference between the Developers Agreement and a Development Agreement - this project requires an Escrow and Developers Agreement; the standard template provided with every subdivision application. She confirmed that the standard developer's agreement has been received. Councilmember Sadler reiterated that a development agreement (specific only to this development) has not been submitted. Cody Rhees noted that this project is a Residential Overlay subdivision without public amenities. Mayor Beesley asserted that a large (three-acre) lot, identified as undevelopable open space on the plat, will be considered a public amenity. Councilmember Sadler commented on the stormwater detention system and sought clarification on plans for existing irrigation ditches on the property. Brad Jensen affirmed that the ditches will be piped. He indicated that one ditch of particular concern will run under the detention pond. Councilmember Sadler remarked on claims that an existing barn on the property is historical. Cody Rhees indicated; to his knowledge, the barn is not on an official historic registry. He told of local oral tradition on the well-regarded landmark. Councilmember Sadler reviewed current site development standards and reminded the developer that setback requirements in the code will be effective should the existing structure ever be removed/replaced. He explained that removal or relocation of Ross Taylor's barn was ordered by the Planning Commission in the past, due to similar, nonconforming conditions. He advised that the accessory building in question be held to the same criteria. He indicated that this is a public safety issue. Mayor Beesley noted some inconsistency in the way development around historic landmarks has been conducted. He expressed dismay over the possible loss of the old barn. Councilmember Beal pointed out that precedent has been set for allowing the structure to remain in place. She requested input from the City Engineer on the matter. Brad Jensen stated that the structure does not pose a problem. Councilmember Sadler spoke of

PLAIN CITY COUNCIL
MINUTES OF REGULAR MEETING
AUGUST 20, 2020

safety concerns due to the proximity of the building to the street. Councilmember Allen commented on the presumed public safety issues. Councilmember Sadler referred to stormwater management plans, related to the project and asked about financing of the detention basin. He remarked on a variety of possible feature attributes, suggesting that the details be negotiated and then accepted by all parties prior to construction. Cody Rhees indicated that he will construct the rudimentary detention basin and pay for it. He noted that the area does not have irrigation provisions, at this time. He affirmed that the basin will be correctly graded, sloped, and easily maintainable. He proposed planting cabin grass over the surface and specified that a chain link fence will encircle the feature. Public Works Director, Dan Schuler reviewed Plain City Public Works Standards for detention/retention basins. Brad Jensen reported that the proposed pond is substantially larger than it needs to be to handle runoff from the subdivision. Councilmember Sadler advised that the detention basin must be cobbled, according to the Public Works Standards, because irrigation is not available to the area. Cody Rhees indicated that rocking the basin would be an upgrade he is willing to complete but not fully fund. Councilmember Sadler recommended approving the final plat under the condition that a development agreement is provided. Mayor Beesley informed that the final plat has already been annotated with required open space specifications. Councilmember Sadler asserted that, per ordinance, a development agreement must be provided. Cody Rhees agreed to submit a development agreement as a condition for final approval of the Heritage North subdivision. Councilmember Allen suggested that mention of City collaboration in detention basin construction should be included in the motion made on this matter. **Councilmember Allen moved to grant Final Approval of Heritage North Subdivision – 4008 W 2800 N – 22 lots, contingent upon providing a development agreement; with acknowledgement of intended City collaboration in development of the detention/retention basin. Councilmember Beal seconded the motion. Councilmembers Allen, Beal, Sadler, Weston and Skeen voted aye. The motion carried.**

Discussion/Motion: Development Agreement – West Park Subdivision

Mayor Beesley previewed the Development Agreement, a copy of which was previously distributed to City Councilmembers. Councilmember Sadler noted an error on page 5 – Paragraph (F), where PRUD is called out in place of “Residential Overlay”. Nilson Homes representative, Mark Staples recognized the error and agreed to correct it. Mayor Beesley commented on provisions in the agreement, for upgrades to City lift station 2. He calculated the value of anticipated amenities. He proposed that impact fee revenues be used to add other beneficial features as the development progresses. He noted that grants are available for such amenities, as well. Councilmember Beal verified that common areas around the planned housing will be owned and maintained by an HOA. Mayor Beesley indicated that designated open space areas will be dedicated to the City. Councilmember Allen contemplated creating a general plan for future amenities in the subdivision. Mayor Beesley commended Nilson Homes’ willingness to collaborate on City-provided facilities that may be added while the park is under construction. He announced that the Plain City Powerline Corridor Trailway will commence in this development. Mark Staples indicated that the open field(s) will not be planted for several months, allowing time for decisions on alternative park designs and budget arrangements to be made. Councilmember Skeen advised that the parking lot design will be influenced by the purpose it serves. He stated; if a ballpark or football field is placed there, the recommended number of spaces will be higher than if your parking lot is primarily for picnickers. Councilmember Allen recommended that the Public Works Department and Recreation Department be involved with planning of the space. Mark Staples answered in the affirmative, Councilmember Sadler’s query; if fencing behind lots next to the Powerline Corridor will be owned and maintained by the HOA. **Councilmember Allen moved to approve the Development Agreement – West Park Subdivision, with revisions as recommended by City Attorney, Brandon Richards. Councilmember Weston seconded the motion. Councilmembers Allen, Beal, Sadler, Weston and Skeen voted aye. The motion carried.**

Discussion/Motion: Residential Sewer Rates

Mayor Beesley reported that there was a great response over social media, to the Council’s decision to adopt a pay-per-use system for residential sewer billing. He spoke of specific concerns that were expressed. He told of Councilmember Allen’s research on water usage for animal care. Councilmember Allen charted animal population data and water-use coefficients, in gallons per head per day for various animal types. He remarked on Facebook posts in opposition to the new billing structure. He listed some expected sewer fee increases due to water usage for animal care. He noted; water used for other activities that do not impact the sewer system, like washing cars and filling swimming pools/hot tubs, will also increase a household’s sewer bill. He stated that the City must not charge residents a rate based on a parameter that cannot be measured. He submitted that public input should have been sought, prior to a vote on this matter. Mayor Beesley reviewed an exemption in the rate structure that allows households without a secondary water source to lock in a winter usage quotient. He commented on other utilities that are billed per-use. He speculated that culinary water consumption is a practical way to gauge sewer incursions from most households. He introduced a modified pay-per-use fee schedule that would perceivably eliminate radical bill increases while providing adequate revenue to sustain the sewer

PLAIN CITY COUNCIL
MINUTES OF REGULAR MEETING
AUGUST 20, 2020

system. The hybrid billing arrangement consists of a base rate for sewage collection and a pay-per-use metric for treatment. He requested that another Public Hearing on Residential Sewer Rates be set. Councilmember Beal asked if the modified arrangement includes the same exemption for households without a secondary water supply. She inquired about an exemption for animal care water usage. Mayor Beesley stated that the proposed alternative schedule includes a release for households without a secondary water source. He remarked on added administrative work that will be demanded in processing exemption applications. He maintained that the restructuring of charges is not intended for revenue increase, but to provide a fair means of assessment and ensure that funds are available for the sewer service needs of a growing community. Councilmember Weston restated; making sewer rates fair, across the board, is the point of this billing approach. He concluded that the modified pay-per-use plan, introduced by Mayor Beesley, is more equitable than the current flat-rate system of billing. He commented on metering household sewer outflow. He expected that other municipalities have considered pay-per-use billing for sewer service. He asserted that causers of a cost should be the bearers of the cost; equating a flat-rate billing system to socialism. Councilmember Beal indicated that she finds the hybrid approach more acceptable. She suggested that the proposed dual-factor billing platform be published on the Plain City Facebook page so residents can study it before the Public Hearing. Councilmember Sadler noted that Resolution 2020-08 must be officially rescinded before a new rate structure can be adopted. Councilmember Allen supported continuation of the current sewer billing schedule, citing its simplicity and proven practicality. Dan Schuler stated that the stormwater impact fee is based upon the amount of impervious surface associated with development - the percent of impervious surface that contributes to stormwater runoff varies based on development type and density. He explained; in order to define the existing and future need for stormwater management facilities, various types of information is collected and analyzed. He contended that a household's metered culinary water usage does not accurately reflect impact on the sewer system. Councilmember Beal remarked on Manti, Utah's acreage-based sewer service assessment. Mayor Beesley told of research he has done, in an effort to arrange a fair and accurate sewer billing structure. Councilmember Weston explained that Plain City's sewer costs are lower than most communities in Utah because of the uncommon biological treatment plant that's in place. He asserted that mechanical treatment systems are twice as expensive to operate. **Councilmember Weston moved to table Discussion/Motion: Residential Sewer Rates and Set a Public Hearing for September 17, 2020. Councilmember Sadler seconded the motion. Councilmembers Allen, Beal, Sadler, Weston and Skeen voted aye. The motion carried.**

Motion: Approval of Business Licenses

New

2 Tracks Contracting LLC	Loren Patterson	1525 N 4325 W	office for construction co
Mac Renovations	Shane McFarland	2941 N 3550 W	general contractor
Natural Lather Soap Co	Tammy Folkman	2510 N 4100 W	soap making

Councilmember Sadler moved to approve the business licenses as presented. Councilmember Allen seconded the motion. Councilmembers Allen, Beal, Sadler, Weston and Skeen voted aye. The motion carried.

Motion: Approval of Warrant Register

See warrant register dated 08/01/2020 to 08/18/2020. **Councilmember Sadler moved to approve and pay the bills as presented. Councilmember Beal seconded the motion. Councilmembers Allen, Beal, Sadler, Weston and Skeen voted aye. The motion carried.**

Report from City Council

Councilmember Skeen announced the purchase of a new evaporative cooling unit for the Fire Department building. He thanked those involved with advancing the needed renovation.

Councilmember Weston had no further comment.

Councilmember Sadler requested that the previously discussed fiberoptic installation be scheduled for further examination. Councilmember Beal reported that school starts next week. She urged caution while driving, seeing that students will be walking and riding bikes to school, as well as entering and exiting busses. She encouraged support for teachers during this challenging school year.

Councilmember Allen recognized Dan Schuler and Fire Chief, T.J. Larson, for their thoughtful monitoring of local social media groups and quick response to questions/concerns raised by residents. He noted that they provide excellent service in many aspects.

PLAIN CITY COUNCIL
MINUTES OF REGULAR MEETING
AUGUST 20, 2020

Mayor Beesley gave a progress report on the annexation of western unincorporated land. He explained that although the deadline was met for submittal of the annexation petition to the County, the format was deemed improper and the application was returned for revising. He indicated that an exercise to obtain pertinent information and revise the petition is underway. He reported that the Youth City Council accepted an assignment to hand deliver flyers and stickers related to the new Green Waste program to each home in Plain City.

At 8:30 p.m. Councilmember Sadler moved to adjourn and was seconded by Councilmember Allen seconded the motion. The vote was unanimous.

City Recorder

Mayor
